Re the appointment of 47 sweepers to clean the public baths and latrines in the B'lore City

---

I have the honour to state that the Health Officer of this Municipality reported that the public baths and latrines in this City are not being kept clean, as no separate establishment has been maintained for the purpose and as some of the sweepers from the divisions have been detailed for this work, to the detriment of the Division work and further proposed that it was quite necessary to appoint a staff consisting of 47 sweepers on a pay of Rs 10/- each per month, with an annual experditure of Rs 5,640/- The proposal of the Health Officer has been approved by the Council on 23-10-1944 The expenditure on this account during the current year will be met out of Rs 3,600/- provided for the purpose under E (2) Conservancy and Sanitation Due provision in this behalf will be made in the annual budgets in future

A copy of the Health Officer's report and that of the Council resolution referred to above are herewith forwarded for favour of obtaining the sanction of Government to the resolution of the Council

I have the honour to be,
Sir,
Your most obedient servant,

R Madhavan

Municipal Commissioner I/C

Forwarded with compliments

C Narayanaswamy

Hon President

Brief Notes on Additional Sweepers for attending to latrines and lavatories, submitted by the Health Officer, Bangalore City, on 24th August 1944, to the Municipal Commissioner, Bangalore City

---

It is understood that the Municipality has constructed 37 urinals, Baths and latrines in various divisions for use of the public It is a well known fact that our people misuse these latrines and once they are misused no one likes to use it again It is therefore quite necessary to post a sweeper always at each of these latrines to attend totheir clealiness immediately they are used The Municipality has not sanctioned any additional staff ror the purpose The Sanitary Inspectors are therefore obliged to detail some of the sweepers from the divisions for this work to the detriment of the division

Urinals and latrines in congested and important areas which are frequently in use should have 2 sweepers to work by shifts and others one There are 37 urinals and latrines of which 10 require 2 sweepers each and the rest one each Thus 47 sweepers on a pay of Rs. 10/- each have to be sanctioned at a cost of Rs 5,640/-per annum It may not be out of place to state that a premier Municipality like Bangalore should have several urinals end latrines constructed in various parts of the city according to the requirements If approved, a systematic survey will be done and the number required suggested
